

ANNUAL REPORT

July 2024 – June 2025

Our Mission

Our mission is to enhance the quality of life for our clients by providing recovery-based, individualized supportive services. Our commitment is to empower individuals to take charge of their own lives and to allow growth opportunities for themselves. We challenge individuals to reach their greatest potential by promoting self-care and independence. We strive to provide services in the most cost-effective, least restrictive, and most normalized environment possible.

WHAT WE DO

COMMUNITY ASSISTANCE RECOVERY ENTERPRISE (CARE) provides intensive mental health services designed to partner with individuals with severe psychiatric disorders. Most of the individuals we serve are currently involved or at risk for involvement in the criminal justice system, encounter frequent psychiatric hospitalizations and are chronically homeless.

CARE is very focused on evidence-based practices in conjunction with community-based practices. Some practices that are utilized in the CARE program include: Assertive Community Treatment (ACT), Harm Reduction, Motivational Interviewing and Strength-Based Solutions Focus. Others include: a Housing First Model, Client-Centered Approaches and doing whatever it takes to assist the member in meeting their needs to improve their quality of life standards.

Outreach services,
service coordinators,
psychiatrists, and nurse
assistance

Intensive interventions, court
liaisons, multi-agency
partnership

Medication services,
housing assistance

Not Interested in Employment	103 (95.4%)
Employed	0 (0.0%)
Unemployed	103 (100.0%)
Total	108

MILESTONES OF RECOVERY SCALE

The Milestone of Recovery Scale (MORS) is both a clinical and administrative tool. It allows us to measure where individuals are in their journey of recovery and produce data that describes the journey of recovery over time.

The MORS has 8 possible categories of recovery, or milestones, in which a client may be assessed to be at. They include:

- Extreme Risk (1)
- High Risk/ Not Engaged (2)
- High Risk/ Engaged (3)
- Poorly Coping/ Not Engaged (4)
- Poorly Coping/ Engaged (5)
- Coping/ Rehabilitation (6)
- Early Recovery (7)
- Advanced Recovery (8)

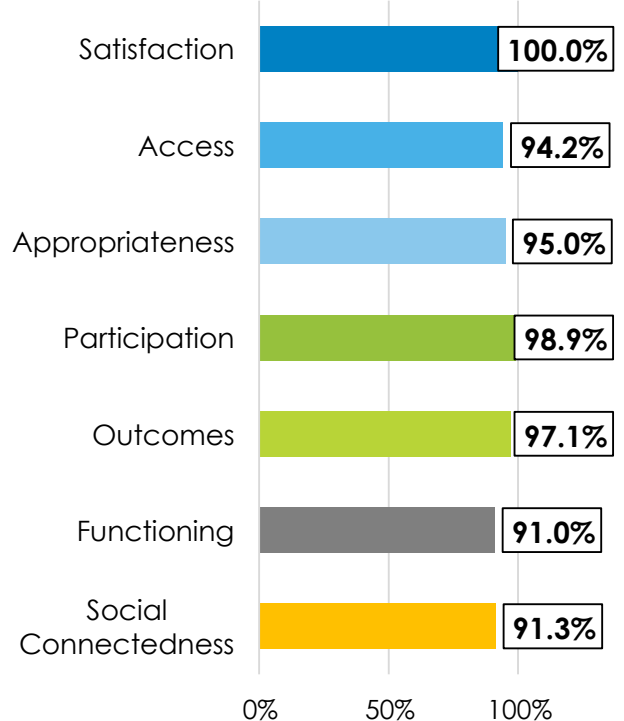

Client Group	#	%
Clients with higher MORS in June 2025 than in July 2024	11	10.2%
Clients with same MORS in June 2025 and July 2024	21	19.4%
Clients with lower MORS in June 2025 than in July 2024	13	12.0%
Clients with no MORS in either June 2025 or July 2024	56	51.9%
Clients who were unable to rate (score of 9)	7	6.5%
Total	108	100.0%

DISCHARGES

Discharge Destination	#	%
Admitted to residential/institutional MH services	3	9.1%
Moved to another county/service	5	15.2%
Whereabouts unknown	3	9.1%
Completed MH Service	4	12.1%
IMD/SNF	1	3.0%
Internal program change (higher level of care)	1	3.0%
No Longer Receiving Services (Client Choice)	12	36.4%
Jail/Prison	4	12.1%
Total	33	100.0%

CLIENT SATISFACTION

Level of Satisfaction by Domain

Overall Satisfaction Rate **95.4%**
