

Justicia – Full Service Partnership

ANNUAL OUTCOMES REPORT

July 2024 – June 2025

WHAT WE DO

Justicia is a Full Service Partnership using the Assertive Community Treatment (ACT) model to deliver a full range of services to people who are involved with the justice system and diagnosed with a mental illness. Justicia's goal is to give the individuals served the support and services that will help them have the life they choose, which isn't dominated by the justice system and/or their mental impairments. Our goal in serving our members is to help reduce crisis that could involve hospitalizations, homelessness and/or incarcerations. We want to support our members to increase their quality of life by maintaining safety, completing their court program successfully and participating in meaningful activities of their choosing, such as education and/or employment, all of which will lead to a reduction in service need, successful completion of court order and discharge from the program.

HOW DOES THE ACT MODEL WORK?

- 1 A TEAM APPROACH.** Psychiatrists, nurses, psychiatric technicians, mental health professionals, housing specialists, & substance-abuse specialists join together on the ACT team to give individualized care.
- 2 SERVICES WHEN NEEDED.** Individuals served receive ACT in their homes, work and other settings in the community where problems occur or need support.
- 3 PERSONALIZED SUPPORT.** ACT teams work with relatively small numbers of people.
- 4 TIME-UNLIMITED & CONTINUOUS SUPPORT.** ACT team members will work regularly with each individual served for as long as they need them.
- 5 FLEXIBLE SUPPORT & SERVICE.** Teams fit their schedules around the needs of the individuals served.
- 6 COMPREHENSIVE SUPPORT & SERVICE.** ACT Teams provide an array of services to help meet the needs of each individual.
