

Providence Center AACT ANNUAL REPORT

July 2024 – June 2025

WHAT WE DO

Providence Center promotes wellness and recovery, partnering with individuals 18 and older living with severe and persistent psychiatric disabilities. Clients are referred for individualized, locally-based outpatient treatment. Assertive Community Treatment (ACT) and Assisted Outpatient Treatment (AOT) assist clients in achieving and maintaining a higher level of independence and quality of life within their community. Services strengthen community integration, mental and physical well-being, vocational and educational opportunities, healthy relationships and a level of independence.

24/7 team availability, medication evaluation and outreach and specialized integrative care plan

Outreach to unserved or underserved individuals, peer support and advocacy, assistance with housing and benefit advocacy

Additional is provided on behalf of those involved in the legal system and/or alternative courts **support**

MILESTONES OF RECOVERY SCALE (MORS)

The Milestone of Recovery Scale (MORS) is both a clinical and administrative tool. It allows us to measure where individuals are in their journey of recovery and produce data that describes the journey of recovery over time. The MORS has 8 possible categories of recovery, or milestones, in which a client may be assessed to be at. They include:

- Extreme Risk (1)
- High Risk/ Not Engaged (2)
- High Risk/ Engaged (3)
- Poorly Coping/ Not Engaged (4)
- Poorly Coping/ Engaged (5)
- Coping/ Rehabilitation (6)
- Early Recovery (7)
- Advanced Recovery (8)

Client Group	#	%
Clients with higher MORS in June 2025 than in July 2024	18	15.9%
Clients with same MORS in June 2025 and July 2024	30	26.6%
Clients with lower MORS in June 2025 than in July 2024	20	17.7%
Clients with no MORS in either July 2024 or June 2025*	41	36.3%
Clients who were unable to rate (score of 9)	4	3.5%

*This category includes clients who were missing scores due to being enrolled after July 2024 or discharged before June 2025.
